Study Overview: Trusting God in a Chaotic World

The book of Isaiah is a beautifully epic narrative that acts as a mirror for our modern lives. Writing to a society facing intense political anxiety, shifting cultural values, and the constant temptation to form unhelpful alliances, Isaiah delivers a message that hits home today: **Will we trust God, or will we turn to our own devices?**

This weekly study is designed to take you deeper into Scripture so you can "do justice to your own soul" by giving it the time and space to grow. Together, we will confront the reality of God's absolute holiness alongside the depth of our human brokenness. Yet, we won't stay in the brokenness—Isaiah constantly points us toward God's beautiful plan of redemption and the total renewal of creation. By locating ourselves within God's grand story, you will discover compelling, rock-solid reasons to live confidently, securely, and full of hope, no matter how chaotic the modern world feels.
